experiences in natural and inclusive environments that provide each child and family with equitable access and opportunities for learning and growth.

6. **Using Responsive and Reciprocal Interactions, Interventions, and Instruction:** Candidates plan and implement intentional, systematic, evidence-based, responsive interactions, interventions, and instruction to support all children's learning and development across all developmental and content domains in partnership with families and other professionals. Candidates facilitate equitable access and participation for all children and families within natural and inclusive environments through culturally responsive and affirming practices and relationships. Candidates use data-based decision-making to plan for, adapt, and improve interactions, interventions, and instruction to ensure fidelity of implementation.
7. **Professionalism and Ethical Practice:** Candidates identify and engage with the profession of early intervention and early childhood special education (EI/ECSE) by exhibiting skills in reflective practice, advocacy, and leadership while adhering to ethical and legal guidelines. Evidence-based and recommended practices are promoted and used by candidates.
8. **EI/ECSE Field and Clinical Experience Standard:** Early Intervention/Early Childhood Special Education candidates progress through a series of planned and developmentally sequenced field experiences for the early childhood age ranges (birth to age 3, 3 through 5 years, 5 through 8 years), range of abilities, and in the variety of collaborative and inclusive early childhood settings that are appropriate to their license and roles. Clinical experiences should take place in the same age ranges covered by the license. If the license covers all three age ranges, the program must provide clinical experiences in at least two of the three age ranges and a field experience in the third age range. These field and clinical experiences are supervised by qualified professionals.
